FOURTH SUPPLEMENT TO THE AMERICAN ORNITHOLOGISTS' UNION CHECK-LIST OF NORTH AMERICAN BIRDS.

By order of the Council of the American Ornithologists' Union the Committee on Classification and Nomenclature of North American Birds has prepared the following report on the species, subspecies, and changes of nomenclature proposed during the year ending November, 1891, forming the Fourth Supplement to the American Ornithologists' Union Check-List.

The numbers at the left of the scientific names facilitate collation with the Check-List. The interpolated species and subspecies are numbered in accordance with the provisions made therefor in the code of Nomenclature (see page 14, last paragraph).

II. CHANGES OF NOMENCLATURE.

567.1. Junco carolinensis Brewst. This becomes

III. FORMS CONSIDERED AS NOT ENTITLED TO RECOGNITION.

Ictinia plumbea (Vieill.).—The record of the occurrence of this species in Florida proves to have been founded on a misidentification of an immature example of Ictinia mississippiensis. (Cf. Cahoon, Orn. and Oöl. XV, March, 1890, 35, and Chapman, ibid. XVI, March, 1891, 44.)

The type and single known specimen proves to be not distinguishable from A. c. neisoni.

Pipilo maculatus magnirostris Brewst., Auk, VIII, April, 1891, 146.

Rejected on the ground of the slight and inconstant nature of the differences supposed to distinguish it from P. m. megalonyx.

Sitta carolinensis lagunae Brewst. Auk, VIII, April, 1891, 149.

Not satisfactorily distinguishable from S. c. aculeata, the alleged characters proving slight and inconstant.

Considered as not distinguishable from T. aonalaschkae auduboni.
IV. PROPOSED CHANGES IN NOMENCLATURE REJECTED.

Hirundo Linn. vs. Chelidon Forst. (Cf. Reichenow, J. f. O. 1889, 187.)

An examination of Shäffer’s work (Elementa Ornithologica) as regards its scope, character, and purpose, including his treatment of Hirundo, fails to substantiate the claim that H. rustica must be considered the type of Hirundo, and that consequently Chelidon becomes a synonym of Hirundo. Therefore the former action of this Committee on this case is now reaffirmed.

V. ACTION DEFERRED FROM LACK OF MATERIAL.

Final action on the following was deferred, owing to the absence of sufficient material to enable the Committee to arrive at satisfactory decisions.

Megascops asio aikeni Brewst. Auk, VIII, April, 1891, 139.
Megascops asio macfarlanei Brewst. Auk, VIII, April, 1891, 140.
Megascops asio saturatus Brewst. Auk, VIII, April, 1891, 141.
Vireo vicinior californicus Stephens, Auk, VII, April, 1890, 159.

The following proposed changes of nomenclature were laid on the table, to be considered at some subsequent meeting of the Committee, in connection with other cases requiring revision.

The question of the generic or subgeneric rank of the genus Ardetta Gray.

Errata.—In the Third Supplement to the Check-List (Auk, VIII, Jan. 1891) numbers 582k and 582i (p. 86) should stand respectively as 581k and 581i.
